

ID 350/110 AFC

The ID 350/110 Afc medium-pressure dust removal system is used for the safe and clean vacuuming of large quantities of dust and fine swarf. The reliable solution for professional applications.

Order no. 9.988-784.0

- Automatic filter cleaning system
- Sound reduction

Technical data

EAN code		4066529099761
Supply voltage	Ph / V / Hz	3 / 400 / 50
Air flow	l/s / m³/h	972 / 3500
Vacuum	mbar / kPa	71 / 7.1
Container content	l	100
Rated input power	kW	11
Vacuuming type		Electric
Filter areas	m²	24
Connection nominal diameter		ID 250
Sound pressure level	dB(A)	75
Weight without accessories	kg	754
Weight incl. packaging	kg	754
Dimensions (L × W × H)	mm	1460 × 1389 × 3093

Users must receive training on this device.

Equipment

Container emptying	Set-down trolley
■ Included in the scope of supply.	

Designed for dust class M for high occupational safety

- Dust class M filter engineering for safe vacuuming of hazardous types of dust.

Simple and safe emptying without removal of drive head

- Dust-free emptying thanks to PE sack with integrated closing mechanism.
- Simple disposal of dust in a PE sack.

Durable, washable pocket filter and electric filter cleaning

- Uninterrupted vacuuming at high suction power without any reduction in the filter effect.
- Welded seams guarantee a long service life of the pocket filter.
- For efficient, convenient filter cleaning and constant suction power.
